***** SUSTAINING MEMBERS NIGHT *****

Next Meeting . . . . Wednesday, March 11, 2015
Where . . . . Pollo Rico, Centereach, NY
Topic: The Convergence of the Industrial Semantic Web and the Internet of Things
Speaker: Rupert Hopkins, XSB
Social Hour … 6 pm   Dinner … 7:00 pm    Meeting … 8:00 pm
Members …$25   Guests …$27   Students …$15
(New and recently transferred-in members free)
Reservations appreciated – call Peter Indrigo (631-589-6666)

Directions to Pollo Rico Latin Bistro

Pollo Rico is located at 2435 Middle Country Road (Rte. 25), Centereach. Probably the simplest way to get there from the LIE is to take Exit 62 (Nicolls Road) and go north on CR 97 (towards Stony Brook). Continue north for about 3 miles then take the exit to Rte. 25. At the traffic signals at the end of the ramp go left and head west (Smithtown). The restaurant will appear after about 1.5 miles, on the right side of the highway. Their telephone number is 631-471-0585. Their website is: http://www.polloricolatinbistro.com/
The LIASM Executive Committee appreciates the support received from all our advertisers. Let’s make every effort to direct our business to them, if at all possible.

The Topic

XSB is working with the US Department of Defense, Major OEMs and prominent Standards Development Organizations to develop the Industrial Semantic Web. The Semantic Web is often described as a ‘Smart’ Web or a Web of concepts. The Industrial Semantic Web links the characteristics of parts, materials, and processes. This linked data dramatically reduces engineering time-to-knowledge and provides significant configuration management opportunities. Mr. Hopkins will describe the framework behind this Web and illustrate practical applications of the Semantic Web for industrial parts and material management.

The Speaker

Rupert Hopkins is President of XSB, Inc. XSB is a Long Island based software company that provides a robust, patented combination of technologies for organizing and standardizing legacy data and enriching it with data harvested from the Web. This provides transparency across the enterprise and its Web of customers and suppliers. Mr. Hopkins is responsible for guiding the company’s strategic vision and business strategy, ensuring that XSB continues to meet the needs of its customers while driving technology innovation. Rupert is internationally known for his work in commercialization of defense technologies and industrial productivity. He has served as an adviser to the U.S. Secretary of Defense Office of Economic Adjustment, the Defense Standardization Program Office, the Council on Foreign Relations, the Soros Foundation and others. He is also the former Long Island Regional Director of Economic Development for New York State.
The LIASM Executive Committee appreciates the support received from all our advertisers. Let's make every effort to direct our business to them, if at all possible.

NONDESTRUCTIVE TESTING
- Magnetic Particle
- Fluorescent Penetrant
- Visible Dye Penetrant
- Contact Ultrasonic
- Immersion Ultrasonic
  - with data acquisition
- X-Ray
- Nital Etch
- Eddy Current

CLEANING
- Passivation
- Abrasive Blasting
- Glass Bead Blasting
- Plastic Media Blasting
- Acid Pickle Cleaning
- Alkaline Cleaning
- Parts up to 20' Long

ANODIZING
- Boric-Sulfuric
- Chromic
- Sulfuric
- Parts up to 18' Long

PLATING
- Titanium-Cadmium
- Cadmium
- Brush Plating

PAINTING
- Primers
- Top Coats
- Dry Film Lubricants
- Fuel Tank Coating
- Teflon
- High Temp Primers
- Masking

SHOT PEENING
- Automatic and Manual
  - Regular & Hard Cast Steel
  - Glass Bead
  - Ceramic
  - Parts up to 8 Feet Long
  - Post-Peen Cleaning

CONVERSION COATINGS
- Alodine 1200
- Phosphate Fluoride
- Sol-Gel

OTHER PROCESSING
- Stress Relieving
- Conductivity Testing
- Hardness Testing
- High Humidity Testing
- Salt Spray Testing
